Professional Summary

Product leader with deep working knowledge of the generative AI stack — LLMs, RAG and advanced RAG pipelines, vector databases, and prompt engineering — focused on translating AI capability into product roadmaps and shipped outcomes. 9+ years owning product strategy, backlogs, and roadmaps for analytics and cloud data platforms across AWS and Azure. Certified Professional Scrum Product Owner (PSPO I), AWS Cloud Practitioner, and Microsoft Azure Fundamentals (AZ-900). Proven record delivering enterprise data architectures and BI solutions (Databricks, Tableau, Power BI) that turn complex data into business decisions across diverse industries.

Experience

Mphasis Limited · India

Product Module Lead - Systems Jan 2023 – Present

Tech stack: Python, LLMs, APIs, AWS, Analytics, Agentic AI

- Own product strategy, backlog, and roadmap for Python-based analytics and cloud data platforms across AWS and Azure, partnering with cross-functional teams to ship scalable, reliable systems.
- Led multiple on-premises-to-AWS migration projects, including application re-architecture and data migration, reducing operational costs by 30%.
- Built automation solutions in Python and optimized Tableau workflows via REST APIs, streamlining content publishing and operational processes across cloud platforms.
- Developed ETL pipelines with Azure Data Factory and AWS for automated ingestion, transformation, and loading across multi-cloud environments.
- Built end-to-end analytics on Databricks with interactive Tableau and Power BI dashboards, translating complex datasets into actionable business insights for stakeholders.
- Implemented monitoring and alerting for cloud resources, enabling rapid issue resolution and 99.9% uptime.

Ultimate Kronos Group · India

Senior Analyst Dec 2019 – Oct 2022

Tech stack: Tableau, Power BI, SQL (Azure SQL), Python, Azure Data Factory

- Developed 20+ Tableau and Power BI dashboards tracking finance, operations, and workforce analytics KPIs, supporting data-driven decisions for senior leadership.
- Optimized complex SQL queries and stored procedures in Azure SQL, reducing report generation time by 40% and improving data pipeline efficiency.
- Implemented comprehensive data validation and reconciliation processes across multiple source systems, ensuring 99.9% data accuracy in enterprise reporting.
- Served as subject matter expert (SME) for BI reporting, providing technical guidance, conducting user training sessions, and managing enhancement requests.

Accenture Solutions Pvt Ltd · India

Business Analyst Jan 2017 – Dec 2019

Tech stack: Excel, VBA, SQL, Power BI, SharePoint

- Gathered and documented detailed business requirements for analytics solutions, creating functional specifications and process flow diagrams for development teams.
- Built automated MIS reporting systems using Advanced Excel, VBA macros, and SQL queries, reducing manual reporting effort by 60%.
- Facilitated stakeholder workshops and requirement elicitation sessions, ensuring alignment between business needs and technical solutions.
- Prepared executive dashboards and presentations for C-level stakeholders, translating complex data insights into actionable business recommendations.

Certifications

- Professional Scrum Product Owner I (PSPO I) — Scrum.org
- AWS Certified Cloud Practitioner
- Microsoft Certified: Azure Fundamentals (AZ-900)

Education

Symbiosis School of Distance Learning · Pune, India

PG Diploma in Business Administration Feb 2017 – Feb 2019

Mahatma Gandhi University · India
